

## **Business CAGs**

In business the CAG was created by looking at all the work the student submitted on Markbook over the whole period up to 20th March when the college closed. As per Ofqual instructions I did not consider any work submitted after this date.

I also gave due consideration to the amount of effort and commitment that students demonstrated following the January mocks, the results of which did not necessarily reflect that. Historically students have performed higher than the January mock grades might indicate after an extended period of intensive revision.
