

## **History CAGs 2020**

In recommending CAGs for students due to take their History exam in the summer of 2020, the History department undertook a thorough, rigorous and reflective process. We used quantitative data primarily to recommend grades and fine-tuned the rank position with qualitative data and professional judgement.

We numerically ranked all students at the following data points, and gave a cumulative rank:

- Average GCSE point score.
- L6 UCAS predictor exam.
- U6 Jan mock exam.
- NEA.
- Average mark book grade.

Following this, multiple in-depth and lengthy discussions using professional judgement took place within the dept with every single student's progress discussed, as well as with the Head of Faculty and members of SLT. CAGs were tested against our three-year average trend as well as our 'best results' in the last three years to test their robustness before being finalised for submission.
