We collect the following personal data under GDPR Article 6c (Legal Obligation), and 6e (Public Task) in order to meet our legal obligations with the ESFA. They are also necessary in order for us to carry out our public task to provide education and training.

- Details about yourself including your name, date of birth, gender and ethnicity

Collecting student information

Most of the information above is collected directly from yourself via an application or enrolment form. A medical form is completed by your parent/carer after you have been given an offer or have enrolled. Some information such as previous qualifications may

be collected or verified from other organisations such as the Learner Records Service or your previous school.

Failure to provide data required to meet legal obligations will result in us not being able to enrol you as a student. Failure to provide other information, for example learning difficulty information, may result in the college being unable to provide the standard of service we would wish to provide.

Storing your data

We hold your data securely on the College's databases and on paper in a locked environment. We retain applicant data for one year after the application process has finished so that we can effectively deal with re-applications. We retain student data for six years after you leave the College. We do this so that we can provide a reference for you if you need one or if you need to confirm you were a student here for other reasons. As such, we cannot act as a referee for you after six years after you have left the College.

Updating your data

We have a duty to keep your data up to date so will periodically ask you to check that it is all still correct. You can submit changes to your details via Woodle and you can request a new ID photograph via the attendance team.
